## Work Experience

### Amazon and Shopify Seller

Since 10/2019 Self-Employed

- Built online store with e-commerce functionalities for print on demand clothing.
- Created over 30 clothing designs in Adobe Photoshop and designs for Facebook advertisements.
- Ran email campaigns to reach business goals.
- Discovered passion for web development, created websites and apps. Expanded knowledge through taking online courses.
- Utilised data collection strategies to produce data inputs for marketing purposes.

### Business Management Rotation – GE Oil & Gas

09/2017 – 09/2019, Newcastle

- Created a system of automatic calculation of Key Performance Indicators based on data analysis of tens of thousands of inputs, which resulted in the reduction of down-time on the site.
- Launched new management of change system and became Management of Change leader for all significant projects on the site with more than 700 people.
- Designed visualisations of data regarding tools and calibrations.
- Calculated pricing for new projects in the value of up to 50,000,000 GBP. This was a key task as the pricing was pitched to the customer.

### Customer Service Operator – Cofidis

09/2014-09/2015, Prague

- Collaborated with other team members to evaluate customer credibility. Provided information concerning loans.
- Handled relevant documentation and conducted data analyses in Microsoft Excel.
- Utilised problem solved skills to overcome customer related problems and taking action accordingly.
